

Project Engineer

The East Columbia Basin Irrigation District (ECBID) is accepting applications for a Project Engineer.

The District needs a Project Engineer to manage the civil and mechanical engineering workload related to design, planning, reviewing and inspection of District operated and maintained facilities. Current engineering needs at ECBID include the planning, design and construction management of several new, large pumping plants and pipeline systems. A PE is required for this position.

Submission of a resume and ECBID application is required; applications may be obtained at 55 N 8th Ave, PO Box E, Othello, WA 99344. The application deadline is 5:00pm on May 4, 2018. Call (509) 488-9671 ext. 115 for more information.
