The Wenatchee Chiwawa Irrigation District is in search of a Ditch Manager to replace Mike Hudson, who is leaving December 31, 2018. This would be a part time job beginning immediately.

The season begins in March and runs through October and would require a few hours of maintenance a day to keep the ditch running smoothly. You would need to be physically able to walk parts of the ditch on a daily basis. Maintenance includes mowing, raking, cleaning of trash racks, repairing holes in the ditch, and managing the flow of water to users. The hours you work are flexible and the salary is negotiable, depending on experience. You would need to live within the Plain or Lake Wenatchee area in order to be close-by in case of emergency.

If you are interested, or you know someone who might be interested, please call Jan at 763-2397 to get an application and to schedule an interview.
